SUBJECT No. 205.

Bagani trees on hiduvali lands.

Messrs. T. Narasinga Rao, North Mysore Native Planters' Association, B. Subramanya Bhatta, and Halgar Subbaraya, Koppa Taluk.

Summary of discussion.—Landholders in the malnad may be allowed to tap bagani trees on their lands for their *bona fide* use. This subject has been brought forward more than once. The ryots of malnad have lost their hold on the coolies chiefly by reason of their having lost their right to bagani trees.

Messrs. C. Srinivasa Rao, C. Vasudeva Rao, Malali Venkataramaiya and other members from the malnad taluks also spoke on the subject and represented that the existing system needed considerable alterations in respect of bagani trees; that in the malnad agricultural labourers cannot do without a drink of toddy every day and that if restrictions are placed upon drawing toddy from bagani trees, they will go in search of it to distant toddy shops and get drunk and absent themselves from labour, thus causing inconvenience and loss to their employers; that this class of labourers has from time immemorial been accustomed to drinking toddy; and that it is therefore essential to give them facilities to draw toddy from trees standing on or near the lands in which they generally work.

The members further urged that, as the formalities to be gone through before a tree can be tapped necessarily take time, several bagani trees could not be tapped at all as delay is fatal to successful tapping. They therefore requested that the tree tax system might be either wholly abolished or so modified as to suit the peculiar conditions of the malnad and pointed out that this may be done without any loss of revenue to Government.

Reply of Government.—The whole question will be carefully considered and a decision arrived at in due course.

20-6. Has a green bottle Record been sent to the Taluk & contents.

R

Govt decided in march 1910 not to suspend the T.T system in bagan areas and approved of the circular in which certain formalities were dispensed with regarding the delay in marking trees etc. In June 1910 the circular was finally approved.
